PROJECTS

Real Estate Management System - Odoo(v18)

- Built a custom module from scratch using Odoo 18.
- Created models and defined relationships using Python.
- Customized views (form, list, search) with XML.
- Implemented business logic using computed fields and constraints.

Courier Management System - Odoo(v18)

- Developed custom modules for courier booking, tracking, and delivery lifecycle management.
- Integrated multi-mode shipping (Air, Road, Sea) with route and dynamic pricing logic. Implemented smart route suggestions based on priority.
- Automated invoicing with taxes, discounts, and real-time tracking via unique courier IDs.
- Designed QWeb PDF reports, demo data, role-based access, and performance dashboards.

Hotel Management System - Odoo(v18)

- Built a custom hotel module with room booking, guest management, billing, housekeeping, and maintenance features.
- Developed a dynamic booking wizard with room selection based on quantity, custom pricing, and automated invoice generation and with multiple views like kanban, form , list .
